

## Preface 11

## 1 Childhood and Education 15

- 1.1 Family and schooling 17
- 1.2 Undergraduate studies 24
- 1.3 Graduate studies 27
- 1.4 Postdoctoral studies 33

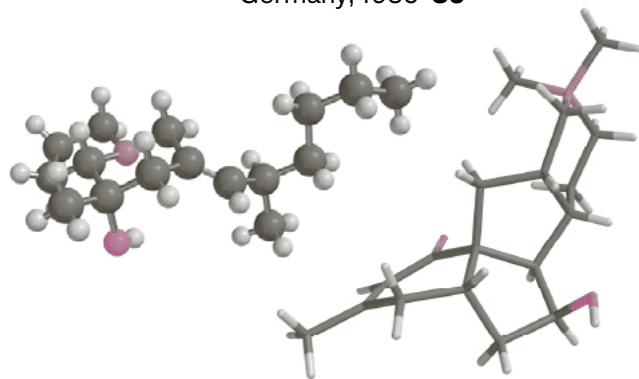

## 2 The 1970s: Early Discoveries 39

- 2.1 Initiating my research career and the discovery of the Overman rearrangement 41
- 2.2 Thermal rearrangements 48
- 2.3 Diels-Alder reactions and the total synthesis of pumiliotoxin C 50
- 2.4 Total synthesis of gephyrotoxin and the invention of the aza-Cope Mannich reaction 54
- 2.5 Catalytic allylic rearrangements 57
- 2.6 Teaching, mentoring, and life at UC Irvine in the 1970s 58
- 2.7 Early participation in scientific conferences 62

## 3 The 1980s and 90s: Heterocyclization Reactions 65

- 3.1 My growing involvement in natural products total synthesis 67
- 3.2 Iminium ion cyclizations of vinylsilanes and alkynes: synthesis of poison-frog alkaloids 75
- 3.3 Pinacol-terminated cationic cyclization reactions 80
- 3.4 Sabbatical in Hannover, Germany, 1985 89

## 4 The 1980s, 90s and 2000s: Pd-Catalyzed Reactions 95

- 4.1 Intramolecular Heck reactions 97
- 4.2 Catalytic enantioselective intramolecular Heck reactions 109
- 4.3 Catalytic enantioselective reactions of alkenes 121
- 4.4 1993 was a special year 127

## 5 The 1990s and 2000s: Alkaloid Total Synthesis 131

- 5.1 Tethered Biginelli reactions and guanidinium alkaloids 133
- 5.2 Sarain A 143
- 5.3 Epidithiodioxopiperazine (ETP) natural products and tricyclic analogs 150
- 5.4 Solvent Purification Systems 155

## 6 Fragment Coupling with Tertiary-Carbon Radicals 159

- 6.1 Investigations of *tert*-butyl analogs of macfarlandin E 161
- 6.2 Total synthesis of (-)-aplyviolene: fragment-coupling reactions of tertiary-carbon radicals 165

## 8 Coworkers, Friends, Hobbies, and My Family 189

- 8.1 Coworkers made it possible and enjoyable 191
- 8.2 Thoughts on building a research group and mentoring 194
- 8.3 David MacMillan, 2021 Chemistry Nobel Prize 196
- 8.4 My choice to remain at UC Irvine for my academic career 198
- 8.5 Family, friends, recreation and hobbies 201
- 8.6 Joanne and our family 203

## Appendix 207

- Afterword 209
- Acknowledgement 210
- Vita 211
- Chemistree 212
- Holographs 215
- Publications 226
- Patents 244
- Links 247
- Image sources 249
- Index 250

## 7 Professional Activities 175

- 7.1 *Organic Reactions* and *Organic Syntheses* 177
- 7.2 U.S. National Academy of Sciences 182
- 7.3 Industrial associations 184
- 7.4 Sabbaticals and visiting professorships 187
